We are Good Digital Citizens!

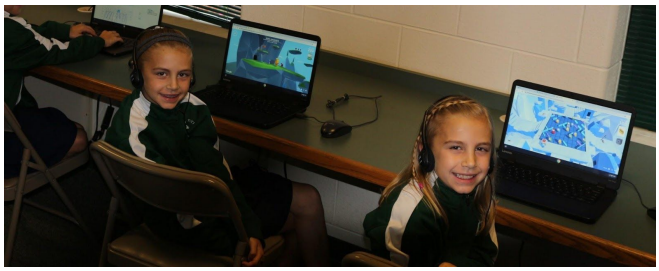
St. Patrick's Students are continuing computer literacy

by Bob Powers on October 1

We are at it again! Students at St. Patrick's school have 40 minutes to work on their computer literacy skills. Some of the things we are working on are keyboarding, coding, and digital citizenship.

THIS Month's
TOP STORIES

Typing Club - Become a 5 STAR club member



by Bob Powers on October 2

For the month of October, 3rd through 5th grade students have the opportunity to be part of the 5 star club using Typing Club. When a student achieves 5 stars on 5 lessons in Typing Club, the student can email me of their achievement. At the end of the month I will hand out a candy treat and take a pic of them to get into our famous newsletter!
If your child wants to practice at home they can go to this . Your child will need to sign in with their St. Pat's Google account.

K-2 Teach Your Monster to Read

by Bob Powers

Kindergarten, first, and second grades are teaching their monster how to read. Here is the sign in link if you want to play at home. Use this picture above as your link to the game. Your child just needs to type his/her first name.

Fungooms is FUN!

By Bob Powers

Our younger students are going to Fungooms. Fungooms is an interactive site that gets young students using the mouse and keyboard to explore and navigate the site. Click on the picture above to play.

ENJOY SOME PICS of us in the LAB!
